

**Petition**

To the Legislative Assembly of Ontario

WHEREAS the Premier acknowledged the role of oil and gas greed in driving up gas prices and recognized that they are gouging Ontarians;

WHEREAS it is evident that fossil fuel giants exploit situations such as carbon tax increases to disproportionately raise their prices, with executive pay and corporate profits rising significantly in tandem;

Aislinn Clancy, MPP  
Kitchener Centre

WHEREAS Ontarians bear the burden of these increased costs without any financial relief or benefit;

WHEREAS there is a pressing need for a credible clean energy plan that benefits all Ontarians, rather than catering solely to the interests of oil and gas executives and corporations;

THEREFORE, we, the undersigned, call upon Ontario to commit to a credible clean energy plan that prioritizes the interests of Ontarians over the profits of oil and gas companies. The plan should aim to transition Ontario away from fossil fuels towards cleaner, cheaper renewable energy sources, thereby reducing the financial burden on Ontarians and contributing to a more sustainable future for our province.
